

## **COURSE TITLE**

---

### **GOOD DOCUMENTATION PRACTICE + DATA INTEGRITY**

#### **Course Date**

16 & 17 July 2019

#### **Course Fee**

\$963.00 per pax (inclusive of GST)

#### **Course Duration**

9am to 5pm

#### **Course Venue**

Temasek Polytechnic

#### **Introduction**

The effective control and management of documentation is a critical part of the GMP program within the organization. GMP authorities such as the MHRA, FDA, PIC/S and TGA have been publishing more guidance documentation on data management / data integrity in response to increasing numbers of data integrity-related inspection deficiencies. This module will help you identify your GMP data integrity needs and vulnerabilities, integration with Good Documentation Practice, as well as how you can address them to reduce your regulatory risk.

#### **Target Participants**

This course is designed for professionals involved in data management and integrity implementation.

#### **Course Outline**

- What is Good Documentation Practice?
- GMP requirements on Good Documentation Practice, including electronic records and signatories
- Data Integrity (DI) and its integration with Good Documentation Practice
- Demonstrating DI compliance throughout manufacturing lifecycle
